

Sessa Sport Fly 54

Snaga i udobnost pod plaštom elegancije

Novo elegantno morsko stvorenje izranja iz vode ove sezone. Sessa Marine SPORT FLY 54 prvi je sportski model u „Fly Bridge“ seriji i predstavlja korak ispred za sve koji željno iščekuju oslobađanje cijele Fly Bridge linije. Nova serija izrazito se ističe bogatom opremom i inovativnim materijalima i tehnologijama.

Fuzija prostora, stil i udobnost

Vanjski izgled broda ističe se sportskim dizajnom i mišićno robustnim izgledom trupa. Tri velike kabine i dnevna soba/kuhinja strukturno se isprepliću kako bi se dobio što je moguće prostraniji stambeni prostor bez žrtvovanja oblika i karaktera sportskog izgleda. Fuzija dizajna trupa broda, unutrašnjosti i vanjštine značajke su koje „SPORT FLY 54“ čine izrazito funkcionalnim.

Život na otvorenom moru

SPORT FLY 54 na svom fly bridgu može se pohvaliti kuhinjom opremljenom roštiljem, sudoperom i hladnjakom. Sa sedam sjedećih mesta i kliznim zavjesama prostor postaje pravi solarij: namješten, koristan i udoban kao i ostatak broda. Fly bridge uistinu pretvara ovaj model u vikendicu s terasama i pogledom koji se nikad ne ponavlja. Prostrana vlasnička kabina u središtu broda je veliki i luksuzni apartman s pogledom od kojeg zastaje dah, privatnom kupaonicom s WC-om i tušem, LCD ekranom, garderobom za dvije osobe, te dovoljno polica. Na kapetanu broda ostaje odluka kako će personalizirati dnevnu sobu. Odlučuje i želi li kuhinju s barom ili je više za tradicionalnu blagovaonicu. Na raspaganju su i brojni dodatni elementi kao što su flat-screen TV, zastori integrirani u prozorska okna, vinoteka ili bar na gornjoj palubi fly bridgea.

Power and comfort under a cloak of elegance

A new elegant marine creature will be ploughing through the waters this season. Sessa Marine's SPORT FLY 54, the first-ever sport model within the "Fly Bridge" series, is a real step ahead of the game for our customers, who eagerly await for the release of the entire Fly Bridge line. Equipped with all-new features and finishings, the series will showcase a groundbreaking use of materials alongside highly innovative technology.

A fusion of space, style and comfort

The SPORT FLY 54's exterior reflects the motifs of the rest of the boat - designed to be muscular in build and distinctly sporty. Three large cabins and three living room/kitchen spaces, structured and revised to be as residential as possible, maximize the space available without sacrificing the bold shapes character of its "sport" model category. An interplay between the boat's interior and exterior features render the SPORT FLY 54 an extremely functional one. The motor with IPS transmission not only makes the vessel safe and easily manoeuvrable, but it clears space on board. The colour scheme highlights the slender form of the model, and recalls the Sessa's flagship model, the C68.

"Life on the open sea"

The fly bridge, a feature unique to the SPORT FLY 54 within its category, boasts a kitchen equipped with grill, sink and refrigerator. With seating for seven and the sliding curtains, the space becomes a true solarium: furnished, useful and as comfortable as the rest of the boat. The fly bridge truly turns the model into a vacation home with patios and lookout points that never display the same scenery twice. The spacious master cabin at the centre of the boat is a large and luxurious suite with a breathtaking panoramic view,

Svetlost i transparentnost

Sessa je pretvorila ovu jahtu u jedan od najatraktivnijih modela što se tiče svjetlosti s velikim naglaskom na dodir plovila i otvorenog mora. Njegovi ogromni prozori i obrada materijala do najfinijih detalja usmjereni su k davanju unutrašnjosti broda što je više moguće svjetlosti. Velika količina svjetlosti također struji s vjetrobranskog stakla fly bridgea i ulazi u sve tri kabine i kuhinju. Vlasnička kabina s velikim prozorima dizajnirana je s istim ciljem; omogućiti maksimum svjetlosti svim njenim dijelovima.

Brzina i gostoprимstvo

Ovaj brod, istovremeno elegantan i gostoljubiv, opremljen prostranom skiperskom kabinom, daje u vožnji visoku dozu adrenalina postižući brzinu od 37 čvorova. Čak i uz maksimalnu putnu brzinu, zadržava laku upravljivost zahvaljujući joysticku koji čini pristajanje i sidrenje vrlo jednostavnim. Za modele SPORT FLY54 stabilnost i sigurnost su na prvom mjestu kao i udobnost i luksuz, što je glavna karakteristika filozofije Sessa Marine.

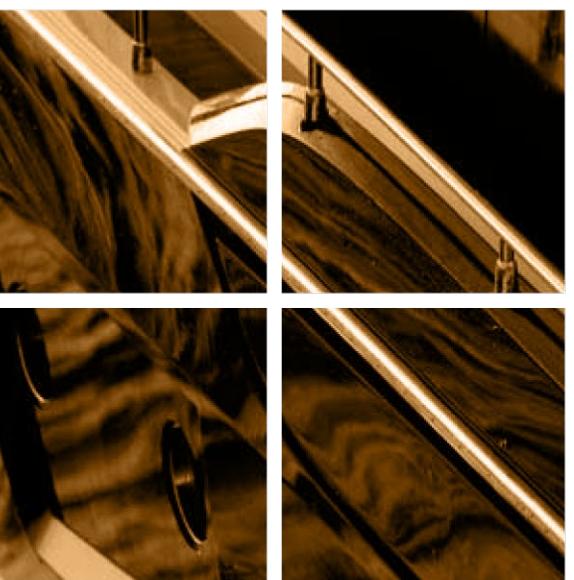

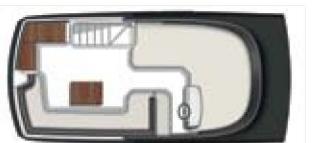

a private bathroom with toilet and shower, an LCD screen, a wardrobe for two and ample shelf space. It remains up to the ship's captain to decide how to personalize the living room. Choices are between a kitchen with a bar, or the more traditional dinette configuration. Also available are numerous additional elements such as the retractable flat-screen TV, the rollaway shades integrated into the window panes, the wine display cabinet or the bar on the upper deck of the fly bridge.

Light and transparency

Sessa has turned this yacht into one of the most luminous in its category, emphasizing to the extreme the relationship between the vessel and the open sea. Its enormous windows, numerous portholes and its use of materials down to the last detail are all geared at ensuring that as much light as possible be present on board. The entrance to the three cabins below kitchen are immersed in a well of light streaming directly in from the windshield of the upper bridge. The master cabin, with its large windows and many openings to the outside, has been designed with the same goal in mind: to maximize the light's influence within the suite.

Speed and hospitality

This boat, both elegant and welcoming, also equipped with an enormous sailors' cabin, will give rise to true adrenaline rushes to all aboard when reaching its speed of 37 knots. Even at maximum cruising speed, however, it maintains its easy manoeuvrability, in part due to the joystick feature to make docking or anchoring very simple. Stability and security come first for the SPORT FLY 54, yet there has been no compromising between the efficiency, comfort and luxury, all characteristics of the Sessa Marine philosophy.

TEHNIČKI PODACI / MAIN TECHNICAL DETAILS
